SUMMARY

Driven Computer Science graduate actively seeking a full-time position in Software Engineering, Web Development, or Data Analysis. Possesses solid hands-on experience in full-stack web applications, database architecture, and system troubleshooting. Highly adaptable fast-learner with proven ability to perform effectively under high-pressure environments, collaborate in cross-functional teams, and deliver robust technical solutions.

EDUCATION

Computer Science

University Hafar Albatin - Bachelor's degree

CSEN2307: Extensive experience in designing and managing relational databases, SQL querying, and data optimization.

CSEN2403: Skilled in developing efficient algorithms and analytical problem solving.

CSEN4358: Systems and networks protection from security threats. Topics include cryptography fundamentals.

EXPERIENCE & PROJECTS

Cooperative Training Program (COOP) / Technical Internship

Applied Computer Science & IT Environment

- **Network & Systems Maintenance:** Diagnosed and resolved hardware/software network issues, configured IP addresses, and ensured network stability.
- **Data Processing & Scripting:** Developed automated Java tools to parse unstructured text files and extract critical data into structured formats.
- **Technical Documentation:** Prepared comprehensive technical reports, network topology diagrams, and status updates for management.

Full-Stack Web & Database Development Projects

Independent / Academic Projects

- **ASP.NET Core Web Application:** Engineered a scalable web application using C# and ASP.NET Core with modern layered architecture, separating UI, business logic, and database access.
- **Desktop & SQL Integration Project:** Built a software utility in Visual Studio (C#) integrated with SQL relational databases to execute optimized data queries and administration tasks.

SKILLS

Work under pressure

Microsoft Office

Teamwork

Java / C# / C++ / SQL

Programming languages

Analytical and critical thinking

Troubleshooting

Customer Interaction

Report Preparation

Self-Discipline

Fast Learning

Problem Solving

Data Entry & Analysis

ASP.NET Core & Database Design
