

SUMMARY

Driven Computer Science graduate actively seeking a full-time position in Software Engineering, Web Development, or Data Analysis. Possesses solid hands-on experience in full-stack web applications, database architecture, and system troubleshooting. Highly adaptable fast-learner with a proven track record of delivering technical solutions, collaborating effectively in cross-functional teams, and demonstrating strong interpersonal communication skills.

EDUCATION

Bachelor's Degree in Computer Science — University of Hafar Al Batin

- **Database Systems:** Practical experience in designing and managing relational databases, SQL querying, and database optimization.
- **Algorithms & Data Structures:** Skilled in developing efficient algorithms, complex data structures, and analytical problem-solving.
- **Network Security & Systems:** Applied concepts of systems and network security protocols, fundamentals of cryptography, and threat mitigation strategies.

EXPERIENCE & PROJECTS

Cooperative Training Program (COOP) / Full-Stack Web Developer Intern

King Fahd Medical City (KFMC) | Applied IT & Software Development Department

- **Web Application Development:** Designed and developed a full-stack web portal using ASP.NET Core / MVC and C#, streamlining internal administrative processes and workflows.
- **Database Architecture & Integration:** Structured and integrated relational SQL Server databases with normalized tables, optimizing query performance and maintaining data integrity.
- **System Optimization & Maintenance:** Performed end-to-end system testing, bug fixing, and database maintenance to ensure high application availability and performance.
- **Technical Documentation & Communication:** Authored technical documentation guidelines, ER diagrams, and system architecture manuals for cross-functional development teams.

Academic & Independent Software Development Projects

- **ASP.NET Core Web Application:** Built a scalable full-stack web application featuring layered architecture (UI, Business Logic, and Data Access Layer) using C# and Entity Framework.
- **Desktop & SQL Integration Utility:** Developed a custom Visual Studio tool in C# integrated with SQL databases to automate administrative queries, data reporting, and Office software integration.

CERTIFICATIONS

- Cooperative Training Certificate: King Fahd Medical City (KFMC) / Riyadh Second Health Cluster (Jun 2025 – Dec 2025)
- Virtual Work Experience - Data Analytics: Misk Foundation & stc (Sep 16, 2025)
- Career Essentials in Business Analysis: Microsoft & LinkedIn Learning (Aug 18, 2026)
- Learning Data Analytics: 1 Foundations: LinkedIn Learning (Oct 2025)

SKILLS

Technical Skills & Frameworks: C#, ASP.NET Core, ASP.NET MVC, Entity Framework, Java, C++, C, SQL, HTML/CSS, Object-Oriented Programming (OOP), Data Structures & Algorithms

Tools & Software: SQL Server, Visual Studio 2019, Database Architecture, Microsoft Office Suite (Word, Excel, PowerPoint, Access)

Professional Competencies: Full-Stack Web Development, Data Analysis, Ability to Work Under Pressure, Teamwork & Collaboration, Effective Communication, Technical Documentation, Problem Solving
